Day 1 - Saturday, June 10: Ilulissat, Greenland

We will enjoy a Glacier & Iceberg Cruise sailing past a fascinating variety of floes and icebergs. The Ice Fjord, which is close to Hotel Arctic, was included on UNESCO's World Heritage List at the 28th of The World Heritage Committee in the summer of 2004.

On a clear day, the landscape is truly surreal. Hundreds of icebergs surround Ilulissat. They vary in shape from flat-topped hunks to jagged mountain peaks and in size from small doghouses to mega-cruise ships and larger. And that's just the part above the surface!

The Ice Fjord contains one of the biggest and most active glaciers in the world. Its 3,000 square kilometer area advances at a rate of 20 meters per day. The glacier "calves" about 10 % of the inland ice that is pressed out into the sea from Greenland and there is nothing in the whole world that resembles it.
