The huge rock also houses a beach where a small population of green sea turtles will nest during breeding season. Galapagos penguins are known to gather here. We will have the opportunity to swim and snorkel and take in the beautiful sights of colorful schools of fish and curious sea lions.

**Day 5 – Wednesday, March 23: Genovesa Island, Darwin Bay / El Barranco**

In the morning, we will take an excursion to Darwin Bay which used to be a shield volcano. Now you can see where one of the sides of its caldera collapsed after hundreds of years of erosion.

The island is known for the wide variety of birds that can be observed. Over 20,000 red – footed boobies are estimated to call this island home within the trees and bushes of Genovesa Island. Snorkeling in this calm bay is part of our activity today!

In the afternoon, we will trail towards El Barranco. This site is also known as Prince Phillip’s Steps. It leads to a rocky path up a cliff that will reward you with an incredibly remarkable view.

This is also home to Palo Santo forest, a nesting place of sea birds such as red- footed boobies, Storm Petrels, and Nazca boobies. The panga ride along the cliffs will offer many nice spots to take pictures.

*Breakfast, Lunch and Dinner included*

**Day 6 – Thursday, March 24: Santiago Island, Espumilla Beach / Buccaneer Cove**

This morning, we will sail to Buccaneer Cove in Espumilla Beach. As the second Island Charles Darwin discovered, it was originally named after King James of England.

A short walk on the beach will take us to Buccaneer Cove, once a refuge for passing sailors and pirates. As we take our short walk, keep an eye out for Marine iguanas and sally lightfoot crabs. This is an excellent opportunity for snorkeling. The underwater formations provide an amazing home for the many different tropical species of fish that can be found here.

In the afternoon, our excursion continues to Egas Port in Santiago. Egas Port is also known as James Bay, home to quick-footed Galapagos lava lizards, colonies of fur sea lions, oyster-catchers, and marine iguanas. This is also considered one of the best snorkeling sites in the Galapagos to be among sea turtles and a greater variety of tropical fish.

**Hotel:** M/C Ocean Spray Luxury Catamaran  
*Breakfast, Lunch and Dinner included*

**Day 7 – Friday, March 25: North Seymour Island**

This morning we arrive in and explore North Seymour Island, named after English nobleman, Lord Hugh Seymour. The formation of this island is due to submarine lava rich in layers of sediment, uplifted by tectonic activity.

This island is characterized by its arid vegetation zone and is home to a huge colony of about 2,500 land iguanas and large populations of sea lions, blue-footed boobies, common noddies, and frigatebirds. Along the coast, we will be able to see land and marine iguanas, as well as the biggest colony of Magnificent Frigatebirds.

After lunch, our journey continues to The Highlands of Santa Cruz. This site is very interesting due to the rich wildlife, fills, ferns, volcanoes, and lava tubes present. Exploring the lava tubes is a surreal and unique experience. Here you can see all the different agricultural zones that are present in the Galapagos in one place. The sheer variety of birds, makes this a bird watchers delight!

**Day 8 - Saturday, March 26: Mosquera Islet - Baltra Airport**

**➔ Guayaquil, Ecuador (commercial flight)**

This morning we will cruise to Mosquera Islet, located between the islands of Baltra and North Seymour. It is a reef of rocks and coral, the result of an uprising, and a great white sand beach. At its most narrow width, it reaches about 160 meters and has an estimated length of 600 meters.

Throughout most of the perimeter there is a base of lava rocks, as evidence of the lava uprising, with the exception of the southwest side, where we land.

This island has one of the largest populations of sea lions. You can also observe several species of shorebirds. There have been occasional reports at this site of Orcas feeding on sea lions.

At the end of our tour, we will disembark and head to Baltra airport for our commercial flight to Guayaquil. Upon arrival to Guayaquil, we transfer to the Hotel Del Parque.

**Day 9 – Sunday, March 27: Guayaquil, Ecuador (SEGU) ➔ Cartagena, Colombia (SKCG) 797 NM**

Today, we will retrieve our planes and fly to Cartagena, Colombia.

Undeniably one of Latin America's most beautiful cities, Cartagena is lost somewhere in time between the sixteenth and nineteenth centuries, with the Caribbean sea as a sparkling backdrop.

Sir Francis Drake laid siege to the city but the fortress walls and cannons remain, making the area within the old walled city a living museum

**Hotel:** Sofitel Santa Clara

## Day 10 – Monday, March 28: Cartagena, Colombia

A UNESCO World Heritage Site, Cartagena is a city with a wealth of character and well-preserved colonial architecture. With restored mansions, horse-drawn carriages and Old World-style plazas, it is a perfect walking city.

After lunch our tour continues with a drive to visit the impressive Castillo San Felipe. Built in the 17th century to protect the city from marauding invaders, it is the largest Spanish fortification in the Americas. Next, see the 17th century Convent of La Popa, a beautiful convent building that sits atop the highest point in the city, commanding spectacular views of the bay, old town and Caribbean Sea beyond.
