Fly over the immense forests and numerous lakes of Canada on our way to Kuuujuaq for a technical stop.

Then continue over southern Greenland's beautiful scenery before landing at Kangerlussuaq in western Greenland. The airport's Kangerlussuaq Museum illustrates the town's past as a U.S. airbase during WWII.

Because we will be approaching the Arctic Circle and the "land of the midnight sun", we will have an astonishing 20 hours of daylight!

Located about 150 miles north of the Arctic Circle, Ilulissat is the most accessible place to see both massive icebergs and the polar icecap. The town has a beautiful location at the mouth of the 35 mile long ice fjord that is filled with enormous icebergs from the most productive glacier in the northern hemisphere, Sermeq Kujalleq. The Ice Fjord surrounds Ilulissat with gigantic formations of icebergs, calving glaciers, and isolated settlements. It offers breathtaking Arctic experiences all year round.

Experience the Midnight Sun illuminating the ice until late into the night,

Day 4 – Saturday, September 10: Ilulissat, Greenland

We will enjoy a Glacier & Iceberg Cruise sailing past a fascinating variety of floes and icebergs. The Ice Fjord, which is close to Hotel Arctic, was included on UNESCO's World Heritage List at the 28th of The World Heritage Committee in the summer of 2004.

On a clear day, the landscape is truly surreal. Hundreds of icebergs surround Ilulissat. They vary in shape from flat-topped hunks to jagged mountain peaks and in size from small doghouses to mega-cruise ships and larger. And that's just the part above the surface!

The Ice Fjord contains one of the biggest and most active glaciers in the world. Its 3,000 square kilometer area advances at a rate of 20 meters per day. The glacier "calves" about 10 % of the inland ice that is pressed out into the sea from Greenland and there is nothing in the whole world that resembles it.
