An exhilarating trek in the footsteps of the rare and critically endangered mountain gorilla – the largest living primate on earth – starts in the dramatic scenery of the Virunga foothills. Trekkers will be immersed in the mysterious intimacy of the primeval rainforest, alive with colorful bird calls, ferns, and butterflies. Experienced local trackers are rangers who have spent their entire lives in this forest. Weaving through the overhanging vines, moss-covered hagenia and giant lobelias that thrive in the tropical climate, the rangers soon bring us up close with a gorilla family.
